

Renal Benefits and Financial Support Services

Renal

What are the Benefits and Financial Support Services?

Renal disease and its treatment and progression can disrupt the ability to work and earn a living for patients and carers. People with renal disease will often find that their income drops as their illness progresses.

Renal benefits and financial support services help patients and carer's manage loss of income and any changes in circumstances so that all benefit entitlements are claimed.

Renal benefits and financial support services are provided by:

- Kidney Care UK
- National Kidney Federation
- Citizens Advice Bureau
- Referral to Social Services.

Contact details are at the end of this leaflet.

They provide a strictly confidential and independent service which aims to maximise income, promote independence and support the best interests of patients and their carers.
