

# Minor Operation - Post-operative advice

## Ophthalmology

After a minor operation, your eye / eyelid may feel sore. If this is so, you may need to take your usual brand of painkiller. Take this as directed and do not exceed the recommended dose.

- If you have been sent home with a pad over your eye, please remove it as directed
- Make sure you keep the wound and any stitches clean and dry. There should be very little discharge from the wound, but if necessary you may clean it using cooled, boiled water and clean cotton wool pad.
- In the unlikely event of bleeding from the eyelid apply direct pressure to the closed eye using a clean pad for at least 5 minutes. If the bleeding does not stop, repeat for a further 5 minutes. If bleeding continues after 10 minutes, please contact the hospital on the numbers below.
- If the doctor has prescribed an ointment, please use it as directed. This is an antibiotic cream and aims to prevent infection and promote wound healing.

If you have stitches, they may need to be removed. Please keep the appointment that has been made for you.

For any problems you experience following your minor surgery, or if you would like further advice, please contact the hospital on the numbers below..

## Contact

Minor Procedures - **01902 695831**

Mon – Fri 0830 – 1700 hours

Eye Referral Unit - **01902 695805**

Mon – Fri 0800 – 1700 hours

Weekends 0800 – 1700 hours
